# WAY TO GO WENDY BARTZ

Most afternoons the pool is pretty quiet but lately there has been a consistent visitor - Wendy Bartz, Maintenance Supervisor! I wanted to recognize Wendy's hard work and dedication to her health. She has lost 49 pounds so far! You Go Girl! Wendy joined weight watchers and started her exercise program 8 months ago. She said her favorite snack used to be candy and now it is nuts or yogurt. Her greatest joy thus far in her weight loss journey was when she had to go shopping! Her pants kept falling down! (Yes I would say that would be a problem!) Wendy also said the hardest part has been learning what to eat and what not to eat! I am sharing this story in hopes it motivates someone who may want to join Wendy on her new health journey! Please give her a High Five when you see her! Way to Go Wendy!
